

CES Transactions on Electrical Machines and Systems

June 2024 Volume 8 Number 2 (ISSN 2096-3564)

Content

113 Message from Editors

Special Section on Stability Analysis and Advanced Control of Wind Power Generation

115 Review of the Configuration and Transient Stability of Large-scale Renewable Energy Generation through Hybrid DC Transmission.....*X. S. Tian, Y. N. Chi, L. X. Li, H. Z. Liu*

127 Review of the Analysis and Suppression for High-frequency Oscillations of the Grid-connected Wind Power Generation System*B. Pang, Q. Si, P. Jiang, K. Liao, X. J. Zhu, J. W. Yang, Z. Y. He*

143 Transient Damping of Virtual Synchronous Generator for Enhancing Synchronization Stability during Voltage Dips*S. T. Sun, Y. Lei, G. W. Hao, Y. Lu, J. D. Liu, Z. X. Song, J. Zhang*

152 Transient AC Overvoltage Suppression Orientated Reactive Power Control of the Wind Turbine in the LCC-HVDC Sending Grid *B. Pang, X. Jin, Q. W. Zhang, Y. Tang, K. Liao, J. W. Yang, Z. Y. He*

162 Analytical Model and Topology Optimization of Doubly-fed Induction Generator
.....*L. Sun, H. Y. Kang, J. Wang, Z. Q. Li, J. J. Liu, Y. M. Ma, L. B. Zhou*

170 Design Optimization of a Self-circulated Hydrogen Cooling System for a PM Wind Generator Based on Taguchi Method..... *G. J. Zhu, Y. H. Li, L. N. Li*

Frontier

177 Review of Three-phase Soft Switching Inverters and Challenges for Motor Drives
.....*H. F. Lu, Q. Wang, J. Y. Chai, Y. D. Li,*

191 Coordinated Capacitor Voltage Balancing Method for Cascaded H-bridge Inverter with Supercapacitor and DC-DC Stage.....*Y. Zhang, Z.X. Li, F. Q. Gao, C. Zhao, Y. H. Li*

Regular Paper

202 Review of Fault-tolerant Control for Motor Inverter Failure with Operational Quality Considered
..... *Y. X. Du, W. X. Zhao, Y. H. Hu, J. H. Ji, T. Tao*

216 Winding Function Model-based Performance Evaluation of a PM Transverse Flux Generator for Applications in Direct-drive Systems..... *M. Ghods, J. Faiz, A. A. Pourmoosa*

227 A Loss-model-based Efficiency Optimization Control Method for Induction Traction System of High-speed Train under Emergency Self-propelled Mode..... *Y. T. Zhu, Y. H. Li*

240 Comments and Corrections
